

## Religious Minds

Everywhere you look around the world  
You see the fights of the religious minds  
They lead their troops they're so blinded by ambition  
Crimes of men obsessed far from blessed  
In name of faith another holy quest

Take a closer look into a church  
You see the wealth of the religious minds  
They keep the treasures to themselves while their religion  
Claims to cure starvation temptation  
But they don't give a shit about salvation

So take another look at all the gods  
Who wrote their laws for the religious minds  
They made them shepherds of their flocks  
Unable to clarify their faith was passion no fashion  
Where wealth and power overrule compassion  
So it sucks ....

## Religious minds

Oh Lord who brought us up out of the house of slavery..  
You God whose name will be hallowed  
Whose will be done on earth as it is in heaven  
They shall not bear false witness against their neighbours  
They shall not steal  
They shall not kill but  
What's the use of prayers like this  
Because .... we (they) always will!
