

Hangover Paradise

It's just an old cabin it's made out of wood
Where the kids come together being tough feeling good
The drinks are plenty and free
They even bring their own booze
Never drunk it before no one cares
They've got nothing to lose

It's their hangover *paradise paradise*
Hopes are high their sorrow dies
Paradise paradise
Yesterday's gone no memory cries

Where friends are made for life because the drinking binds
Some will lose their virginity even more will lose their mind
Their parents let them be or they just don't have a clue
Come on they're almost 16
They know what they do

Their unwilling bodies their struggle at school
They all have a reason to become a drinking fool
Tomorrow will be better and that's what they think
But tonight is still their night yeah tonight's the night
they will drink drink drink drink drink drink drink

Chorus

Some are dying they pay the price
But there's no crying
Hangover paradise
(Solo)
Hangover paradise....
